Vision: To pursue excellence in pharmaceutical education and research to develop competent professionals.

Student Orientation Program

The Student Orientation Program was organized to introduce the newly admitted students and to make them aware the curriculum. The program began with a warm and motivating introduction by the **Principal Dr. Vivekkumar Redasani**, who greeted the students and congratulated them on becoming a part of the institution. He highlighted the importance of discipline, dedication, and active participation in academic as well as extracurricular activities. Students were encouraged to make the most of the resources available to them and to approach their journey with curiosity and confidence. The introduction set a positive tone and helped the students feel comfortable and connected to the campus environment.

1. Academic In-Charge – Dr. Pankaj Pal

Dr. Pal addressed the students with an informative session focused on the academic framework of the institute. He explained the structure of the academic calendar, distribution of theory and practical classes, attendance requirements, and the importance of punctuality. He also guided the students on how to prepare study schedules, manage time effectively, and maintain consistency in learning. He encouraged students to approach faculty without hesitation whenever they need help, and to adopt healthy study habits from the very beginning. His session provided students with a clear understanding of the academic expectations and helped them feel prepared for their upcoming coursework.

2. Examination In-Charge –

Dr. Jain delivered a well-structured presentation on the examination and evaluation system. She explained the guidelines for internal assessments, sessional exams, and university examinations, ensuring that students clearly understood the marking pattern and evaluation criteria. She highlighted the importance of regular study, honest work, and timely submission of assignments. She also informed students about exam rules, the significance of maintaining academic integrity, and the consequences of malpractice. Overall, her presentation helped students understand how to navigate the examination system confidently and responsibly.

3. Training & Placement Officer – Dr. Krishna Swaroop

The TPO, Mr. Krishna, explained various career options available after B. Pharmacy. He divided the opportunities into three main categories: **Industry**, **Higher Education**, and **Entrepreneurship**. In the industry sector, students can work in production, quality control, quality assurance, research, and marketing. He highlighted that the pharma industry offers stable jobs and strong career growth. Under higher education, he discussed options like M. Pharm, MBA, clinical research, and studying abroad. He encouraged students to choose a specialization based on their interests and strengths. Higher studies help students aim for advanced roles in research, academics, and management. In entrepreneurship, he explained possibilities like opening a medical store or starting a pharma business. He motivated students to explore start-up ideas using government support schemes. Overall, he inspired students to plan their career early and make informed choices after B. Pharmacy.

The Student Orientation Program was highly informative and engaging for the newly admitted students. With the Principal's inspiring introduction and the comprehensive presentations by the Academic, Examination, and Placement departments, students gained a thorough understanding of the systems, expectations, and opportunities that await them.

The program not only familiarised them with institutional processes but also motivated them to begin their academic journey with enthusiasm, responsibility, and a positive mindset. It served as a meaningful welcome to the new batch, preparing them for a productive and successful year ahead.
